

GBV CASE IN NCR

A 27 years old solo parent was allegedly physically abused by her common law partner since the end of March and continues to be committed against her up to the present. Her common law partner is threatening the former that if she and her child do not remain in the latter's apartment, they might as well be kicked out. According to the person reporting on behalf of the victim, while she stays with him, she was regularly being physical hurt by the said GBV perpetrator.

The person reporting on behalf of the victim sought legal assistance in filing a case and legal counselling from the CHR. However, CHR-GEWHRC tried to communicate with the victim via Facebook Messenger but to no avail. CHR-GEWHRC also communicated with the person making the report on behalf of the victim who resides abroad.
