

## **GBV CASE IN NCR**

A 17 years old student was being threatened by a certain person who is using a dummy account on Facebook. According to the victim, she was threatened by the said person to make her nude pictures out in the public. She further stated that both the victim and the said person used dummy accounts.

Prior to the threats and harassments, the victim sent the GBV perpetrator a short video and four (4) pictures to FB Messenger of which among those materials contains her hair and her eyes. A minute after the victim sent the said videos and photos, she immediately deleted the same from the chat box but unluckily, the said GBV perpetrator was able to save the said materials.

Consequently, she deactivated her dummy account but she preserved the entire conversation with the said GBV perpetrator. The victim sought assistance from the Commission.

Therefore, CHR-GEWHRC referred the case to the CHR-CRC for proper investigation. E-mails were also sent to the victim but no feedback from the victim up to this date.
